Defendants Accused of Being Trotskyists Engaged in Terroristic Activity Against Moscow Leaders.

MOSCOW, June 14.—Twenty-eight persons have been convicted and executed at Svobodny, in the Soviet Far East, for wrecking the Amur Railroad, it became known today. These executions increased to 151 the known total of persons condemned and shot during the las year in the Government's drive to stamp out internal foes.

The charges were the same as Rose made in three previous trials FAIR TONIGHT in the Far East, at Svobodny and at Khabarovsk. These trials already had resulted in 66 executions. All of the condemned were ac sed of being participants in a Trotskyist, Japanese spy and terror on acting along the Amur

MASSAUA, Eritrea, June 14 .-Amelia Earhart, flying around the world, hopped off at 7:30 a. m. today for Assab, Eritrea, en route to Aden, at the southwestern tip of Arabia, in Asia.

Before she lifted her monoplane off the runway of Otumlo airport, just outside the capital of this Italian colony in Africa, she said she would attempt to fly non-stop to Karachi, India, if weather conditions were good.

She landed here at 2:40 p. m. yesterday from Khartoum, Anglo-Egyptian Sudan, to be welcomed by aviation officials after her 450-mile Aden lies across the Red Sea 400

Elaborate barricade systems were established around the plant. Six hundred workers entered. There were four lines of defense on the road to the plant. Approaching from the city, a visitor first encountered two uniformed police-men. Then he came to the outpost of deputized civilians. Next along the roadway was a steel caset upright in the ground. Finally, there was the main body of the special police, 100 heavily armed

Holloway said plant operations reached 95 per cent of normal today. He said only 100 of the 1322 loyes were listed as strikers, and 25 of them had returned to work. He invited the other strikers to return to their jobs The city itself was quiet.

"We Will Be Back." Van A. Bittner, Chicago CIO organizer, speaking at the mass meet-ing, declared: "In two days we will be back!"

The mass meeting was called to protest against the breaking of a picket line last Thursday at the Newton plant, which has refused to sign a labor contract.

The meeting was called by Homer Martin, chairman of the United Automobile Workers of America. The crowd, arriving in automo-biles from Ohio and Michigan cities, lifted volleying cheers when Bittner declared: "There will be no peace in Monroe until a contract is

"There is a duty that says we must go to Monroe," he went on. "Sunday isn't a day of work. We'll allow them (in Monroe) to rest in peace today. But steel workers will be back in Monroe within two days. We're going to assert our Godgiven right.

Martin's Speech. Martin, who arrived late at the meeting after a dash by plane from Anderson, Ind., sounded a call to workers, declaring:

"Our fight is the fight of the common people. We ask every workingman in America to join in a modern crusade to end oppression and establish security to which the common people are entitled. "It is our purpose to spread the

light of democracy to every part of this land until autocracy and in-dustrial slavery have been driven

Bittner told the crowd: "There is no labor organization in America which the CIO is try-

ing to destroy."

Referring to the American Legion

patrol in Monroe, Bittner said the action of the legion was a "disgrace to American citizenship." He asserted Republic Steel Corporation had "a gang of hoodlums here in Monroe to take the law into their own hands.'

The crowd booed when Bittner added, "The Republic Steel Cor-poration is the law." "Do you imagine they will keep us out of Monroe forever? We are going to bring our union into Mon-

PARIS, June 13.—France is de-

The Gov-ernment of Premier Blum hopes, however, that the time is approaching when something other than a refusal can be given to the semi-annual note from Washington reminding of the financial support given France in the World War. The June 15 installment is \$63. 000,000 principal and \$18,498,000 interest, a total of \$81,498,000.

The total debt as funded by the Mellon-Berenger agreement in 1926 was \$4,025,000,000, of which France paid \$486,075,891 before defaulting for the first time Dec. 14, 1932. Britain and 11 Others Will Send Only Regrets Tomorrow.

By the Associated Press.

LONDON, June 14. — The United

States' World War alies yesterday prepared once more to give "regret-ful" notice they will default the installments due tomorrow on the ob-ligations they incurred two decades

ago.
The British Government was expected to make the same negative reply it has made each six months for the last three years to Washington's reminder that another semi-annual installment is due on the \$4,277,000,000 borrowed, which with accrued interest, has grown to \$5,198,000,000.

Only from Finland, creation of the World War, could the United States expect payment. Twelve other war debtors already are in default to a grand total of \$1,314,-821,109, and \$205,338,754 due Tuesday will increase that to \$1,520,159,863. Acts creating the Social Security and Unemployment Commissions carry emergency clauses, which will make them effective as soon as signed by the Governor. The Conservation Commission amendment. adopted in the 1936 election, contains a provision making the amendment operative on July 1.

The Governor said he had not reached a decision on appointments he will make to the three boards or to the State Statute Revision Commission, and State Cancer Commission, also created by the 1937 Legislature. Acts creating the latter two commissions do not car-ry emergency clauses, and will not ecome effective until 90 days after adjournment of the Legislature on

The cancer commission, to estab sh and supervise a State hospital for indigent persons afflicted with cancer, will comprise four members, and the Statute Revision Commission, to recommend bills for vision of the Missouri laws, to the decennial law revision session of the Legislature in 1939, will be ade up of 16 members.

Approximately 85 bills passed by he Legislature are pending before the Governor for approval or veto, including virtually all of the appropriation bills, carrying authorized expenditures estimated at nearly \$175,000,000 for the biennial period of 1937 and 1938. Gov. Stark has 30 days from the date of sine die adjournment of the Legislature, on June 8, in which to dispose of these bills. He said today that he likely would dispose of the appropriation bills first.

MOCKER, WORLD WAR PIGEON HERO, DIES AT AGE OF 20

Bird Carried Messages That Helped Americans to Smash Hinden-burg Line. By the Associate

FORT MONMOUTH, N. J., June 14.-Mocker, World War carrier pigeon who helped smash the Hindenburg line, died today of old age. He was 20 years old and last of war-time carrier pigeons.

Mocker will be stuffed, given a military funeral, and sent to army signal corps headquarters at Washington to join his feathered buddies, Spike and Cher Ami, who died ot long ago.

Mocker's big moment came on Sept. 12, 1918, when he carried a message from Beaumont giving American artillery the positions of nemy batteries and enabling the doughboys to silence them in 20 minutes. Struck by shrapnel, Mocker lost an eye but was soon back, winging over the front again in the St. Mihiel and Argonne drives. He was wounded twice more but always managed to get back to his cote behind the Amer-

Row Attributed to Officer's Prohibition Activities in Alabama Dry County.

MOULTON, Ala., June 14.-Depu-Sheriff Andrew Dutton, 45 years old, was killed and six others were wounded in a shooting last night at Owen's Chapel Church, six miles om here. Dutton fell with five bullets in his body.

Bert Retherford, 30, gravely wounded, was charged with killing Dutton in a warrant sworn out by Sheriff G. C. Byars. Miss Bertha Perry, 20, was struck in the abdomen, and Lorene Porter, 9, was shot through the lungs. Slightly wounded were Elton Blankenship, Robert Simpson and William White. The shooting occurred when Dutton went to the churc. to "investigate a disturbance." It was described as an "outgrowth of Dutton's prohibition activities in Lawrence County." Lawrence is one of 43 Alabama counties in which ohibition statutes remain in force.

MAN TOLD TO SETTLE STRIKE OR WIFE WOULD BE KIDNAPED

Head of Louisville Trailer Company Turns Penciled Note Over to U. S. Agents.

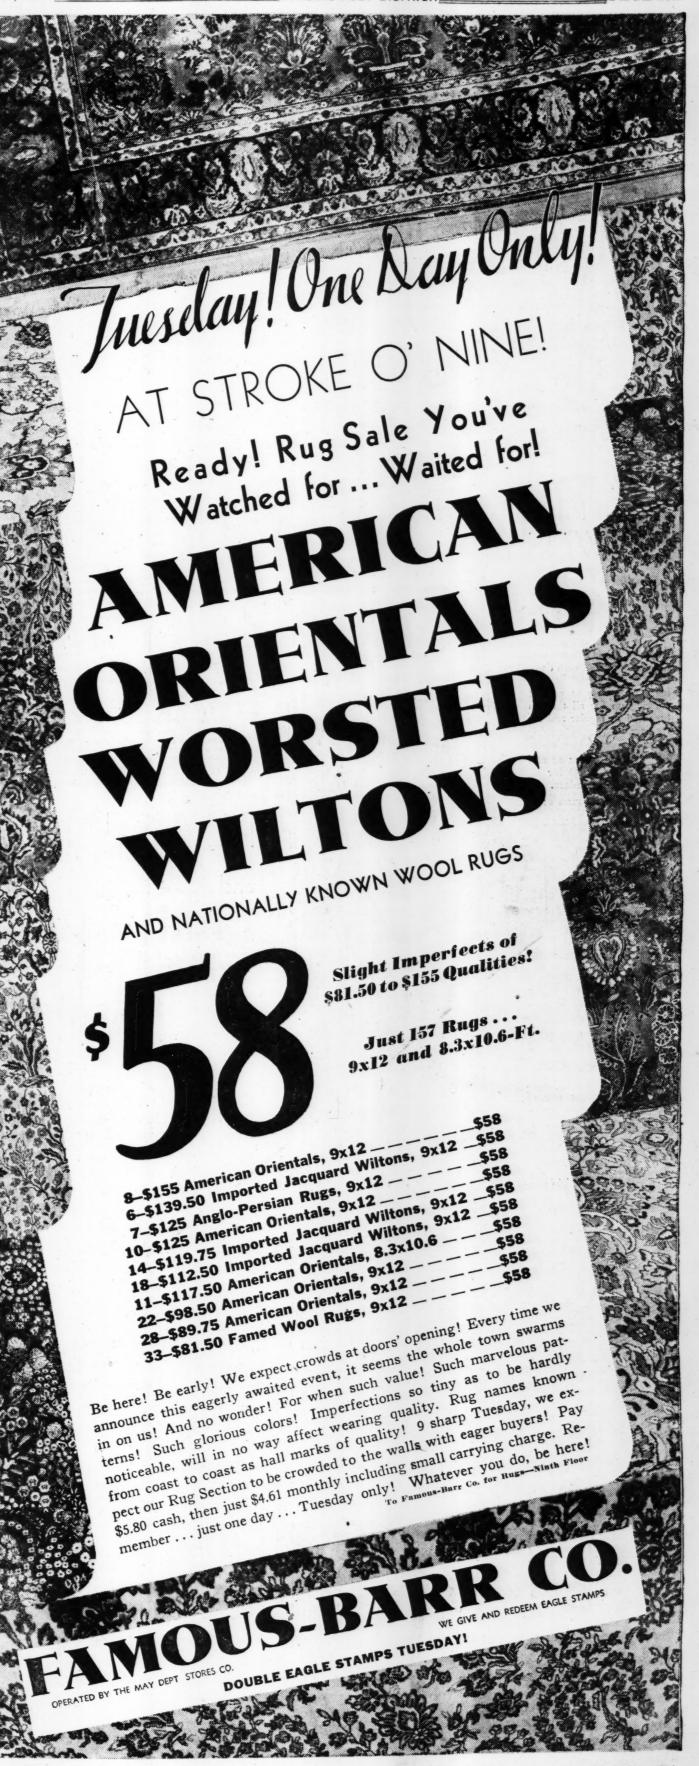

By the Associated Press.

LOUISVILLE, Ky., June 14. -C. H. Kingham, head of an automobile trailer building company whose employes are on strike, disclosed today that he had turned over to Federal agents a letter, re-ceived Friday, threatening to kid-nap his wife, Mrs. Celia Kingham, secretary-treasurer of the company, unless the strike is settled.

The note, sent through the mails, was written in pencil. Police said they had received no report of the threat and Klingham said he was not in a position to discuss what steps he had in mind.

Charges against the company have been filed with the National Labor Relations Board. The strike started May 18.

Miss Guth, who had held the championship for three successive years, really defeated herself when her putt on the last green for a three knocked Mrs. Caughey's ball into the hole giving her a three while Miss Guth's ball stayed out and cost her a four.

The end came with something of a shock to the assembled gallery of 300 or more persons, who had seen Mrs. Caughey come back from a point where she was six down to start the final hole all even as a result of winning the thirty-fifth with a six to Miss Guth's seven.

They were both on the thirty-

Those Mysterious Browns.

MANAGER HORNSBY seems to have about the best bunch of base-hit belters in either league—but still the Browns continue to go nowhere.

Unofficial averages of Sunday indicated that the Detroit Tigers and the Browns were tied for the team hitting leadership of both leagues at .292. That's a husky enough figure to offset a lot of weak pitching, but the club still occupies the cellar apartment in

the league campaign. Seven members of the team are hitting in the upper strata, with Carey, 302, lowest, and Bell, 375, at the top. Others are hitting well, and Knickerbocker has shaken off his batting slump. But, somehow, the enemy generally runs than the Brownies.

By the Associated Press. CHICAGO, June 14.—Unless John

Bull's agents serve some knockout drops in the breakfast coffee to the 10 American invaders, England might as well kiss the Ryder Cup, emblem of international team play supremacy in pro golf, a fond good-by.

Next Wednesday, what shapes up in every way as the strongest American team ever to climb abroad an ocean liner will shove off for His Majesty's island to compete for the Ryder Cup and the British open golf championship No American team ever has won the cup on English soil, but it'll take a couple of broken legs to keep this one from doing the trick Fine teams have invaded England

but the English haven't seen any-thing yet. When they get a peek at Ralph Guldahl, Byron Nelson and Sam Snead, they'll understand what's happened to American golf -why par isn't worth much over here any more. These three freshmen on Uncle Sam's team don't know the meaning of par. They talk and play in terms of eagles and birdies and shake their heads in despair when they "slump" to mere perfect figures.

Only a stubborn putter kept Nelson, the gangling Swede from Read-Pa., via Texas, from making the national open a one-two-three race between him, Guldahl and Snead. From tee to green, Nelson played even with Guldahl and Slammin' Sam, even booming out clouts of 250 to 275 yards with his drives. As it was, he finished with 295 total, which used to be enough

to win any open.

"Lefty" Collison was the hardluck pitcher. He held the Rips A. C., cellar dwellers In the South Side League, to four hits, but lost the game, 2-1. The Schaefer-Lafayette

pitcher had 19 strikeouts. Collison lost the game in the seventh inning when J. Anello reached first after striking out. Catcher Brimmer dropped the ball, enabling Anello to get to first. Finch ther singled for the first hit off Colli son, and after the next two batters were retired, Worsham tripled to center to score the winning runs. The Schaefers were unable to score until the ninth inning. They had seven hits off Reutter.

A fight between Harry Moriarty of the Kroemekes and Leo Werne impire, added spice to the game that saw the Feldkamps defeat the Kroemekes to tie the latter team for first place in the North Side

League.

Joe Brady of the Feldkamps was on third base in the fifth inning with Bill La Posha batting. Brady attempted a steal of home and Moriarty blocked the plate as he came in. Umpire Werne called it interference and Moriarty then hit Werne with the ball. Werne came back with a few blows before other players stepped in. Umpire Werne allowed Moriarty to stay in the

Of course this doesn't reflect fully the pitching weakness of the club. All of these pitchers have time and again been relieved after the enemy had started a bombardment that might have swelled their hits-per-inning totals had their pitchers been forced to remain in the game.

Worse Than Expected.

HORNSBY'S pitching staff is the biggest disappointment connected with the club. While little was expected of it the reality has proved far worse than the forecast. Thomas has not regained his last year's form. Hoggained his last year's form. Hog-sett, a valuable asset last year, is not yet at his top. Hildebrand has done fairly well but better was expected of him. Knott, of whom everybody conected with the club has been expecting great things for some years, continues on his rather drab career.

The ageing newcomers, Koupal and Blake, have not gone anywhere and the pleasant - faced Jimmy Walkup, who "has everyin the language of the scout, hasn't been able to produce it with sufficient regularity

With more than a fourth of the season completed, it seems unlikely the staff will snap out of it. And so the club will have to struggle on trying to hold back the enemy hitting, with about the same success as that of the old lady who tried to sweep back

## TO COMPETE IN PRINCETON AND COLLEGE MEETS

NEW YORK, June 14.-Two track meets on opposite sides of the continent and just about as far apart in the way they are conduct ed will bring virtually every out-standing college track star of the country and most of the real recordsmashers among the club runners

into action this week. The East has the fourth Princeton invitation meet, a select affair involving seven events and 38 picked athletes. In the West, there's the two-day National Collegiate Athletic Association championships at Berkeley, Cal., Friday and Saturday, with an entry list that totals nearly 300, even though distance sharply limited the size of teams from the East, South and Midwest.

Despite the conflict in dates there's not a great deal of conflict so far as the performers are con cerned. Indiana's distance star Don Lash, and Archie San Romani the speedy young runner from Emporia, Kan., passed up the West Coast meet in favor of running in the Princeton mile. The N. C. A. A. meet drew Southern California's pole-vaulting "twins," Earle Meadows and Bill Sefton; Spec Towns the Georgia hurdler, and lanky John Woodruff of Pittsburgh, and a few others who probably would have competed at Princeton. Mile Race Is Big Feature.

The conflict couldn't be avoided the N. C. A. A. was unable to shift its dates, while the Princeton meet was begun as an "Alumni

Ever since Glenn Cunningham sped over the remarkably "fast" Princeton track to a world mile record of 4:06.7 in the first Princeton neet in 1934, the mile has been the big race of the invitation series. This year it again is listed as the climax with Cunningham, San Romani, Lash, Italy's Luigi Beccali and the New York veteran Gene Venzke making up the field. All five have run the mile in 4:10 or

capable of doing around 14 feet, and the two-mile, in which the field has been weakened by the with-drawal of the Rideout twins of North Texas Teachers' College, are the "lightest" events on the Princeton program. None of the vaulters is likely to put up an argument against the Southern California pair or George Varoff of Oregon, who will meet them at Berkeley.

The two-mile steeplechase, a new event, the half-mile and the 220yard low hurdles complete the pro-

With more than 100 athletes in the field who won the right to compete with their expenses paid by their performances during the season and a lot of others who will be trying to outdo them, the N. C. A. A. meet promises brilliant performances in every event. A dozen mem-bers of the 1936 United States Olympic team will be on hand. Southern California is favored to take team honors, but the strong Michigan team, and Indiana, even without Lash, who Saturday anchored the Hoosier distance medley relay team in a world-record per-formance of 10:00.4 for two and one-half miles, are expected to provide stiff competition.

What this extra jacket does for you

NOVEMBER, 1930 ... Double-Mellow OLD GOLDS were two years. And proved in every kind of climate: hot, first to use a Cellophane wrapper as an added protection for cigarettes.

A good idea. So good that all other cigarette manufacturers adopted Cellophane, too. A good idea-but not good enough.

OCTOBER, 1935 . . . Double-Mellow OLD GOLDS introduced the EXTRA jacket. Double Cellophane. Double wrapping. Insuring the American cigarette smokerfor the first time-truly FRESH cigarettes anywhere he buys them.

TODAY . . . The OLD GOLD weather-tight, climate-proof package is no longer a theory. That the EXTRA jacket actually does deliver FRESHNESS to the smoker has been proved day in and day out over a period of nearly

cold, dry or damp.

So the OLD GOLD smoker enjoys not only the luxury of the choicest prize crop tobaccos. Not only the celebrated OLD GOLD double-mellow blend obtained by exclusive Lorillard methods.

He enjoys these fine qualities at their best-at their top form. Because Double-Mellow OLD GOLDS are always FRESH, thanks to the EXTRA jacket.

Always FRESH. Never stale. Always wholesome. Never irritating. Always full-flavored. Never weather-

weary and climate-worn. You can't buy a stale OLD GOLD. The EXTRA jacket is your guarantee.

The Rev. R. Anderson Jardine Says He Hopes to Lecture in the United States.

y the Associated Press

DARLINGTON, England, June 14.-The Rev. R. Anderson Jardine, who braved the disapproval of the Church of England to perform the marriage service for the Duke and Duchess of Windsor, announced his resignation as vicar of St. Paul's Church, Darlington, last night.

He announced today he hoped to ecture for two months in the United States. He described his inended trip as a combined holiday and lecture tour. Presumably he will talk about why he performed the ceremony at Monts. He hopes to leave for America shortly.

"I felt a younger vicar was needed in this parish," said the clergyman. "I intended to resign in any case this year. I am resigning only from this 'living,' not from the Church of England.

#### Results of a County Merger

Five years after three Georgia counties united, survey shows all-around gains; city unit has grown in prestige, but real advances in lower taxes and greater improvements have come in rural areas; benefits include longer school terms, more roads, better health service; success points the way for other states, Virginia paper says.

From the Roanoke (Va.) World-News.

N Jan. 1, 1932, three counties of Georgia were consolidated by vote of the people of the three units. Fulton County, the prosperous area surrounding the City of Atanta, annexed Campbell and Milton counties, enlarging its area threefold.

Five years later, an examination of the results has been made by trained investi-County has gained somewhat in prestige, the real gain in lower taxes and more extended improvements has been in the annexed areas of Milton and Campbell. The investigators went into tax rates, road conditions, school expenditures, health conditions and various other public services

The verdict of the people of the area affected is that the merger has been a success-that the whole section is more prosperous and more livable as a result. two annexed counties are particularly well pleased with the way in which they have been treated. Even the one-time office-holders of Campbell and Milton, whose jobs were abolished, have generally been taken care of in the larger consolidation.

Prior to the merger, Fulton County covered 187 square miles, to which were added 211 square miles from Campbell and 145 miles from Milton. Campbell brought into the merger \$2,900,000 of taxable assets; Milton, \$1,200,000. The total taxable wealth of the consolidated county is now larger than

were the three separate units. In the matter of taxes, the two annexed counties profited greatly. Campbell's former rate was 3.25 per cent, and Milton's 3.2 Prior to the merger, Campbell County had ed roads. Since the consolidation, about

per cent. The rate is now 2.25 per cent. 17 miles and Milton had no mileage of \$25,000 a month has been spent or the roads and bridges of the two former counties, most of it to make all-weather local roads. In addition, Milton has received a 12-mile stretch of first-class State highway construction, bisecting the county.

Good roads are said to have played an important part in the success of the merger, for one of the reasons advanced by opponents was the inconvenience to Campbell and Milton residents of attending court in Fulton County. With new paved roads to the courthouse, both areas now express the belief that advantages of consolidation have far outweighed disadvantages.

organized public health service was available to the two smaller counties before consolidation. Now there is routine health service extending to all of the consolidated area, with physical and dental examinations for all school children, and sanitary regulations are enforced in all areas. One tangible result has come through a

drainage project by which some 3000 acres of overflowed bottoms have been reclaimed for cultivation, relieving 56 square miles of fine bottom land both of overflow danger and of serious malarial conditions. In the 12 months preceding the merger, Campbell County spent on its schools \$56,354

with a seven-month term and teacher salaries averaging \$75 a month, or \$525 a year. In Milton, school expenditures before consolidation were \$37,000 for seven months. with teacher salaries averaging \$50 a month, or \$350 for the term.

In five years, the merger has resulted in expenditure of \$325,000 for new buildings in the annexed area. All schools throughout greater Fulton County now operate for a nine-month term, and teacher salaries average \$100 a month for 10 months a year.

Success of the Georgia experiment, as shown by a survey after five years, indicates something of what could be accomplished by consolidation of Virginia counties into workable units sufficiently large to support well-organized and adequate government. For all their reliance on the State for aid. it is remarkable that no Virginia county has been willing to lead the way into a consolidation that would make for better government at a lower cost.

Month by month, doubt is growing within the dictatorships of the ability of a one-man government to bring efficiency and order into the conduct of public affairs, greatest excuse for being. Germany is the best example of departments of government frequently operating at cross-purposes. Evidence of this has been collected in the

current report of the Foreign Policy Association, which shows that the speed-up in industry, the increased cost of living and the hopelessness of obtaining higher wages have spread discontent among Germany's workers Constant exhortations by Government representatives to the people to do this or that and contribute to one fund or the other, the endless harping on the accomplishments of the regime, are sure indications that the

#### Perils of Wage-Fixing

From the Baltimore Sun.

JOHN L. LEWIS, head of the Committee for Industrial Organization, has told the joint congressional committee which is consider-ing the measure that on the whole he favors the Black-Connery bill to regulate hours and wages in industry. He said that in his opinion the bill promises "at least a glimmer of sunlight to millions of submerged American workers who now live in economic darkness and despair." He thought, too, that it would increase mass purchasing power by shorten

ing hours and raising wages.
But at one point, Mr. Lewis balked. While he favored the establishment of a minimum wage that would be universally applicable for all occupations, he declared that the C I O was "violently opposed" to that proa Labor Standards Board to regulate or fix minimum wages or other wages in individual industries and so enable the board, in effect, to abrogate existing or future wage agree ments between unions and employers. That,

governmental wage-fixing that might "impede progress." William Green, head of the rival American Federation of Labor, suggested a few days before that he likewise had doubts concerning this aspect of the wages-and-hours bill, though he said that the A. F. of L. was willing to accept the proposed wage-fixing section as a temporary expedient, to be superseded in each case by such collective agreements as might be reached by the or anized workers and their employers. Thus, Messrs. Lewis and Green, though differing both in approach and phraseology, actually

see eye to eye on this question. They are essentially on sound ground, for wage-fixing by the Government is just as ricious as price-fixing.

Here we have another case wherein it is proposed to enlarge the power of the state to deal with or control economic affairs at the expense of industry and labor. The more that employers allow this power to pass into the hands of the state, the less they will have to say about the management of their own businesses.

The workers are in the same fix, for the greater becomes the power of the state to fix wages, regulate hours and control workng conditions, the smaller will be the need labor unions. The end can only be the creation of a paternalistic state, which will allow the workers no voice in the conduct of their own affairs.

#### EL SALVADOR'S QUAINT CUSTOM. From the Philadelphia Ir

THE people of El Salvador have their own curious ideals and the methods they use maintain them are of no small interest students of these changing times. For instance, it appears that Salvadoreans make a virtue of thrift. In the Hall of Congress in their capital city, San Salvador, they have ordered the placing of a plaque in appreciation of the business-like regime of heir President, Maximiliano Hernander Martinez. The plague bears this quaint inscription

"I propose as the keystone of the national policy that the Government never again agree to contract new loans." It is obvious that any King, President, dictator, emir, sul tan, Mikado or Gaekwar who promulgated a policy of no more government borrowing would merit a plaque and a collection of medals. Furthermore, a people who backed him up in his program of no more debts should be worthy of the highest encomiums in an era of world-wide spending and increased taxation.

7 WEEK'S LUMBER REVIEWS

By the Associated Press.

WASHINGTON, June 14.—The National Lumber Manufacturers' Association reported today production stood at 77 per cent of the 1929 weekly average for the week ended June 5.

Partly as a rest of the Decoration day fioliday, the association said, new orders touched a record low for the second quarter of the year to date and fell below the volume for the same week in 1936, as did shipments.

CLEVELAND. O., June 14.—Here is the summary of the iron and steel markets presented by the magazine Steel:

A minimum of inconvenience is being met by steel consumers by interruption of steel deliveries from blockaded mills. In a few instances tonnage has been booked by other producers to supply urgent needs of users, but this has been of small proportions.

While buying is less than in earlier weeks new business on mill books is sufficient to retard reduction of backlogs. Deliveries are improving, but slowly, and some producers continue unable to offer anything under several weeks.

Pressure for export tonnage is strong and in addition to the 40,000 tons of ingots for Japan, placed a week ago in the Pittsburgh district, a like tonnage has been booked in another district for the same destination. It is understood both these sales were at about \$40 per ton, f. a. s., which is an attractive price. Inquiries for pig iron continue to offer premiums over domestic prices, one now current involving 40,000 to 70,000 tons .or shipment to France.

Tin plate makers are being rushed for delivery of as much as they can produce at fullest operation. Demand for cans to care for bounteous crops resulting from excellent growing weather is causing heavy specifications. Tin plate producers abroad appear to be oversold and much export tonsage is offered American makers.

A drop of 1 point in the national operating rate brings it to 74 per cent of capacity. Youngstown district gained 1 point to 30 per cent and Butfalo 1 point to 59 per cent entire and surfalo 1 point to 59 per cent and 54 per cent showed no change from the previous week. Pittsburgh lost 3 points to 93 and 5t. Louis 6 points to 85 per cent.

For the third consecutive month steel ingot output in May exceeded 5,000,000 
year reaches 45,437, practically double the number placed during the corresponding period of 1936.

Automobile builders stepped up production last week from the revised previous figure of 101,779 units to 115,900. General Motors increased from 34,472 to 44,520, Ford held steady at 29,240 and Chrysler increased from 22,250 to 27,300. Other manufacturers underwent a slight decline from 15,817 to 14,840. June output shows the seasonal decline, each week running well blow the record of May.

Shipments of Finished Steel.

Slight recession is recorded in shipments of finished steel by the United States Steel Corp. with a total of 1,304,039 tons in May, compared with 1,343,644 tons in May; compared with 1,343,644 tons in Mapril. Cumulative shipments for five months are 53 per cent higher than during the same months last year.

In scrap the situation is somewhat mixed, signs of strength appearing in the East, with prices holding steadily at Pittsburgh, but declining \$1 per ton on steelmaking grades at Chicago. As a result of this weakness, the scrap composite declined 54 cents last week, to \$16.96, reaching the level prevailing at mid-December. The iron and steel composite was lowered two cents by the decline in scrap, to \$39.84. The finished steel composite remains unchanged at \$61.70.

But when the note of compulsion enters, one can be sure of having found a true victim of failure. Those who are bad-tempered or only half alive if an early bedtime must be postponed, those who anxiously count each morning the exact number of hours spent in sleep the night before, mourning inconsolably any interruption, every hour of insomnia, are looking to sleep for more than its normal restorative function. When an adult extends even this, making a nap or two a day a matter of routine, the becomes simple

Next, still among the incon-spicuous failures, the "introverts," are the waking sleepers; persons who allow some activity to pass before them almost within participa-tion, or indulge in time-killing pursuits in which they take only the most minor and unconstructive parts; the solitaire-players, the pathological bookworms, the endless crossword-puzzlers, the jigsaw puzzle contingent. TEETHING should be a normal physiological process, but all too often it is accompanied by upsets and disturbances that upset the normal routine of the baby's

The doctors of 30 or 40 years ago, very, very often said that the cause of fevers and fits and many other things, was teething; too often, indeed, because they did not exclude other possible causes before jumping to that conclusion. I remember seeing a puzzling little patient when I was quite young in practice. The baby had a fever for several days, and try as I might I could not find the cause of it. A consultant was lled in, a doctor of the old school, and he promptly made a diagnosis of teething, whipped out his pocket knife and cut the gums over an erupting tooth so it could come out. The procedure did not do a bit of good, was painful and un-necessary, because the next day we found evidence of pus in the kid-ney pelvis which was the real cause of the trouble.

Dear Mrs. Carr: AM at that pimply age, 15; in addition, I am getting fatter. I cannot find out what is causing these two things as I do not eat many sweets. AM no calamity howler, nor do I shirk work, but I wish you could tell me where to go for work as an assistant housekeeper in an institution or hospital.

Night after night I read your interesting letters and have tried to muster courage and ask your aid.
I am employed now and it is difficult to speak of my reverses, but I believe I could do better work in different surroundings and the truth is, I haven't proper clothes to make a neat appearance anywhere, as I have but one blouse, I hope I am not imposing, but in applying for the type of work I believe I am fitted for I must make a decent appearance, hence I would measurements are 32 bust, 26 waist and 38 hip. I shall be glad to mail it to you or anyone else who may be interested, just now, if a stamped, self-addressed envelope is sent with the request. But it is just a little too long to print in the column.

Dear Mrs. Carr:

HAVE looked so hard for work; but I am a man 53 years old and almost stone deaf. I have walked the streets until I am almost worn out, yet on account of my deafness, no one will give me work. Do not tell me to go to the organizations, because I have been registered with them for several years. I have had sickness in the family and a large doctor's bill and other expenses. We are not living, we are just existing. I have told you what I can do, but please do not put this in the paper as it looks too much like I am just trying to get a cheap ad in the paper and that is not my purpose. I am asking for advice, only.

DOWNHEARTED.

I wonder if you have asked suggestions and possibly help at the quarters of the St. Louis League of the Hard of Hearing. Problems such as yours confront them all the time and sometimes it is possible to place people with your handicap through this organization, located at 4527 Westminster place.

Letters intended for this column must be addressed to Martha Carr at the St. Louis Post-Dispatch. #### Celebration Of Flag Day In America

Our Country's Colors Symbolize Freedom of Thought, Speech and Enterprise.

By Angelo Patri

THE flag is a year older, and we who live under it should understand it better, love it more, cherish it with deeper affection and loyalty. It is fine to see it floating from a forest of masts this birthday, floating high above the heads of the people, high above their institutions, high, high be-yond the sordid concerns, the selfishness, the greed, the cruelty of misguided humanity. We who sa-lute it today must lift our eyes to-ward heaven, which is as it should

Our flag stands for one idea above all others, the freedom of man, all men. Behind that flag lies the history of a hard struggle for dearly won freedom, the free-dom to live happily. No man can live under fear and be happy. The soul of man is free, thinking as it feels, striving toward its goal, growing according to its inner and perfect law, without hindrance, No power on earth can bind the soul It is forever free within itself.

But the soul dwells in the body, and if the body is not free the soul must suffer. Happiness on earth is man's goal, and this freedom of body and soul that he craves lies within that goal. To be happy a man must be free to speak his mind. By speaking he clears his thinking and comes to sound conclusions. A happy man is he who can choose his work and push it through to a satisfying end, for a man's work is his soul's salvation and the chief pleasure of his life.
All men must be free to think, to

speak, to work according to the minds that are in them. It is this freedom that our flag symbolizes as it floats high over our heads. This freedom so dear to all men is the flag's reason for existence, its right to dominate the skies high above all unworthy in-fluences, untouched beyond their reach forever.

M EN struggled, fought and died to set the flag in its to set the flag in its proud place. Men must continue to struggle to maintain it there. After two years in London, Carol Clayton returns to the Brookdale horse-breeding farm in Saratoga, that has been the home of the Claytons for three generations. With her, is her fiance, young and wealthy Hartley Madison. On her first day back, her father, Jim Clayton, dies. Carol, who has from first meeting, resented handsome Duke Bradley, a bookmaker, asks him to wait until she is married for the \$76,000 her father had owed him. Duke had intended to cancel the debt, but at her arrogant attitude he accuses her of marrying for money. Infuriated, Carol auctions off her colt, Moon Ray. Hartley buys it in for \$10,000. She postpones her marriage so she can win the \$76,000 she owes Duke. When he tries to dissuade her, she challenges him to take her bets and he agrees.

Try Chipso "SUCTION SUDS." They're new -Science's latest soap discovery. Actually, these active "SUCTION SUDS" draw dirt outsafely. Not a thread is injured-not a washable color is faded.

RESTORES WHITENESS: Tests show that Chipso restores whiteness even to dingy, gray clothes-far better than other soaps tested. BRIGHTER COLORS: Because "SUCTION SUDS" wash clothes really clean, colors stay brighter. As safe as water alone for colors. 25% MORE SUDS . . . ECONOMY: Laboratory

figures show that Chipso gives at least 25% more suds than ordinary package soaps. EASY ON HANDS: Tests show that Chipso is as mild as many toilet soaps in effect on hands. Ask for the big blue-and-yellow Chipso pack-

ened soap chips. WOMEN OF ST. LOUIS! Chipso is made especially for water of this locality. That means it gives more suds . . . washes clothes faster . . . gets them cleaner than other soaps not so well adapted to local water.

THE MAGNIFYING GLASS SHOWS YOU that cloth is not a smooth, easyto-clean surface. It's a criss-cross of fuzzy fibres that hold dirt-like a trap. Rubbing can grind this dirt loose . . . harsh substances can eat it out. But the easier, safer way is the Chipso way. "SUCTION SUDS" engulf dirt particles and draw them out. Easy
